Where you find the most beautiful beaches,
house reefs for snorkeling or diving.
Beach villas and water villas with private
pools which made Maldives an award wining
travel destination.

MAP OF MALDIVES

HAA ALIFU :- To the far north, this atoll's tropical landscape is largely untouched and uninhabited islands cry out to be visited. This atoll is home to some of the best fishing in the Maldives and world-class diving.

HAA DHAALU :- Located in the north, this atoll is a gateway to true Maldivian hospitality.

SHAVIYANI :- This atoll is one of the northern island groups and one of the least developed of all atolls in the Maldives. Shaviyani is your exquisite personal hideaway about 270km north of Male'.

NOONU :- This is one of the most exclusive and luxurious atolls in the Maldives. The biggest attraction for divers is grey reef sharks, leopard sharks and guitar shark.

RAA :- This is one of the deepest atolls in the Maldives. Scuba divers delight in an abundant variety of reef fishes, diverse marine life, overhangs, drop offs and underwater caves.

LHAVIYANI :- North of Male' this popular atoll has both luxurious and more affordable resorts at different price points from which to choose. It's excellent divers' diving with access to numerous shipwrecks.

BAA :- North west of the capital Male' Baa atoll comprises 75 islands, 13 of which are inhabited and 17 of which have been developed into resorts. Known for luxury, unspoilt islands and marine life, this designated UNESCO biosphere reserve features incredible gatherings of manta rays and whale sharks at Hanifaru Bay.

NORTH MALE' :- This atoll's close proximity just to the north of Male' makes it a greater option for those looking for shorter transfer and is particularly recommended for families. Diving and surfing are popular activities.

ALIFU :- A diving paradise, Rasdhoo atoll is 60km west of Male', it's a venue for spectacular marine life, vibrant reefs, warm water and big fish encounters.

SOUTH MALE' :- Sibling atoll to the more developed North Male' atoll and just as convenient for shorter transfer times, the south Male' atoll boasts dive sites with shipwrecks and ideal snorkeling opportunities.

NORTH ARI :- This atoll has abundant marine life and is the best place to see whale sharks all year round. A degree of diving expertise is required to see the elusive hammerhead sharks here.

SOUTH ARI :- This protected marine area remains one of the best places in the world to see whale sharks. Most of the islands are home to luxury resorts and boast impressive house reefs and rich marine life.

FAAFU AND DHAAL :- These secluded atolls are home to some of the most luxurious resort islands in the Maldives. They offer great surfing & skydiving and feature quite a few channels allowing long drift dives.

THAA :- This is one of the least developed and most remote atolls. Known for diving and surfing. The surrounding nature, coral reefs and channels are largely unspoiled and unexplored.

LAAMU :- One of the most beautiful and untouched atolls, there are few resorts and plenty of deserted islands. The abundant seagrass meadows here make for larger sea turtles. The Ying Yang wave breaks just offshore and is a surfer's dream.

GAAFU ALIFU :- This barely developed southerly atoll is the largest in Maldives and one of the most remote. Star gazing is superb this far south, nature abounds and the cooler water temperatures give more colourful coral reefs.

GAAFU DHAALU :- Located 50km north of the equator, this atoll boasts magnificent diving sites, pristine nature features and excellent house reefs for snorkeling.

The Northern atolls are more traditional, the Southern atolls give a greater feeling of isolation.
